

TOLEDO - entry level leather grade - LT3

An extra thick bull hide leather, fully aniline dyed, and protected with a strong, environmentally friendly pigmented finish which emphasizes its' natural texture and attractive pebbled grain. This very durable leather quality is perfectly suited for high traffic, heavy use applications.

Bolero meets the highest European standards for semi aniline upholstery leathers, Fire Retardancy as per 95/28/EG automotive-industry and BS 5852 part 1 for cigarette and match tests.

Care and cleaning:

Regularly dust your furniture with a soft cloth - spills should be immediately blotted with a soft absorbent cloth whenever they occur, never rub - if needed treat your furniture twice a year with a leather cleaning product.

leather is a natural product, color difference as well as small natural markings may occur

PILOT - medium leather grade - LT2

Ruggedly natural with a soft touch. Pilot is a perfect choice for today's casual living. It is a full grain leather, fully aniline dyed, with a specially developed soft finish, which is protecting the leather against staining.

Care and cleaning:

Cleaners may never be used on this leather as it will destroy the leather. Like for all our leathers, we advise to use damp cloth only, also to prevent that the leather will dry out. The character of Pilot leather, makes it an easy way of living possible and care and cleaning hardly necessary.

- Does not call for more cleaning beyond dusting with a soft cloth or vacuum cleaning with a clean soft brush.
- Liquids, grease, butter etc. should be taken off immediately by dabbing with a dry cloth or paper napkin. Further treatment is not advisable as attempts at removing the marks may increase damage. The remaining marks fade away during a few days.
- Never use cleaners it could destroy the leather.
- Do not place your leather furniture too near a radiator (approx. 30 cm is advised).
- Please do not expose the furniture/this leather to a temperature of 35 degrees or higher. This will have an effect on the wax finish, the cracking look will disappear and it will become darker.
- Do not put hot cups (tea, coffee etc.) on the leather.
- Should the leather accidentally suffer a serious scuff, it is usually possible to erase the mark by rubbing your thumb over the damage with enough pressure to create some friction.
