Sierra

Classic Saddle

Upholstery Leather

Sierra

Origin: South German bull hides

Thickness: 1,7 - 1,9mm

Surface: Pigmented nappaleather with natural grain.

Sierra is a soft and elegant upholstery leather made on a thickness of 1.7/1.9 mm. A protective layer makes it well protected and suitable for daily intensive use. The origin of the hides (South-German bullhides) gives the article an extremely good cutting yield.

Classic Saddle

Origin: European bull hides

Thickness: 1,6 - 1,7 mm

Surface: Full natural grain, drum-dyed nappa leather, with hand antiqued wax finish.

This article combines the use of the very best leathers, vegetable dyes and a special hand rubbed finish. This skilfully applied finish reproduces the unique hand antiqued, rich, smooth and lustrous finish of the past, but with the performance required.
