## Pure Sang

## Walky Nubuck

## Upholstery Leather

### Pure

Origin: European bullhides

Thickness: 1,4 - 1,6 mm

Surface: Natural grain covered with protecting finish.

This leather is 'Pur Sang' Its natural beauty reveals how leather has been produced for centuries in its most beautiful leather colors. The deepness in skin and color is not matched by any other product.

### Walky Nubuck

Origin: European bullhides

Thickness: 1,2 - 1,4 mm

Surface: Slightly brushed and protected by a breating, dirt and water resistant finish.

Special selected hides are slightly brushed to create a wonderfull velvet touch. The thickness of this pure aniline leather is responsible for its firm body with a natural grain structure.
