

The right mechanism for you ... depends on preferred seating comfort & room layout.

## FEATURES

- Heavy-duty steel frame mechanism featuring our dual motorized or relax function. The dual motors allow for the backrest and footrest to operate independently from one another to ensure maximum comfort for the user by fine-tuning their preferred seating position.
- Hand-crafted and ergonomically designed, using high-quality materials and high-density foam allows for maximum seating comfort for hours of movie and other viewing experiences.
- Custom-made to order- allows for a vast range of personalization to fit the users' needs and requirements (armrests width, foam density, and many others). Several stitching options and patterns are available, such as French pinch seam, contrast stitching and many others.

## UPHOLSTERY

A wide variety of luxurious leathers, exclusive designer fabrics or customer supplied upholstery (COM/COL). Our collection of luxury, top grain leathers and exclusive designer fabrics offer our customers a wide variety of upholstery options with endless colors, patterns, textures, etc. Perforation and embossing of leather is available upon request.

## MODULARITY = CREATIVITY

Modularity allows for extensive flexibility and freedom to make up a perfect and unique seating layout that meets design and personal requirements. Like all CINEAK products, our GRAMERCY seating is modularly built and consist of different elements such as seats and armrests in several standard or custom widths. With these elements, one can put together any preferred seating layout which perfectly fits your space.

Examples of possible layouts:

### LED backlit keypads

Control the motorized mechanism with programmable (light intensity, timer, etc.) features, which allows the user to have memory settings.
