

the HARV

### A MODERN VINTAGE DESIGN

The soft quilted upholstery makes the HARV both visually attractive and physically inviting.

As a Sofa, making it the ideal lounging solution for each home theater, entertainment, media or gaming room.

As a Sofa, making it the ideal lounging solution for each home theater, entertainment, media or gaming room.

LED backlit keypads - USB-C charging

control the motorized mechanism, they are programmable (light intensity, timer, etc.) and allow the user to have presets/memory settings, enabling

EXAMPLES

PROJECT:	THE HARV - Elements Motorized Relax	Scale:	1/20 @ A4	Drawn by:	KPH
		Date:	1/04/2022		

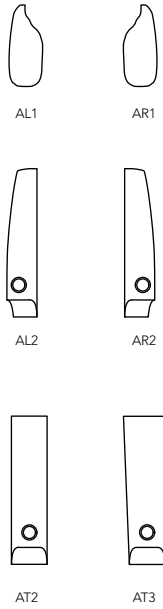

Seating Layout by CINEAK. www.CINEAK.com NOTE: All CINEAK products are custom made to order and hand-built - dimensions may vary and discrepancies will occur due to differences in foam thickness, covering material, modularly adding seating parts and position of mechanisms. Allow small variances especially for modular configurations. CINEAK is NOT a room design nor acoustic AV engineering so it is the responsibility of DEALER to verify dimensions, layout specs and ALI aspects of seating to room. CINEAK does not take any responsibility nor can be held responsible for ANY issues other than quality and proper function of chairs manufactured to CINEAK standards. Dimensional information on products are estimates and may change over time. CINEAK suggests to verify dimensions at time of ordering.

Love Seat - elements - Motorised Relax

Note: red-lines are love seat - connections
