

FERRIER

FERRIER

FEATURES

Dual motorised mechanism

allows for the backrest and footrest to operate independently from one another to ensure maximum comfort for the user by fine-tuning their preferred seating position.

Manual or motorized articulating headrest

allows the user to adjust the position of the headrest to the perfect viewing position and therefore offers proper head, lower back and neck support.

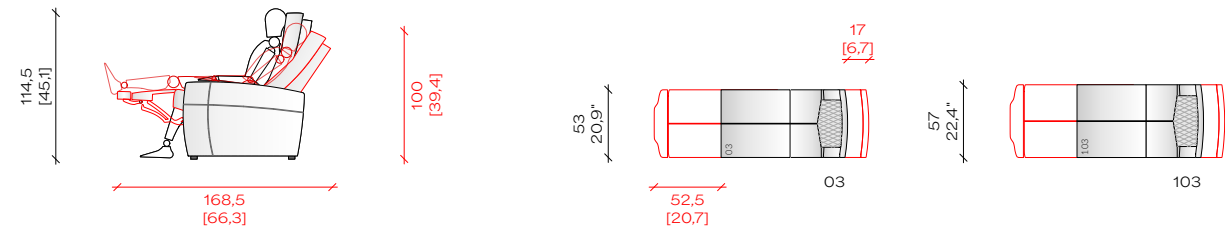

LED backlit keypads

Control the motorized mechanism with programmable (light intensity, timer, etc.) features, which allows the user to have memory settings.

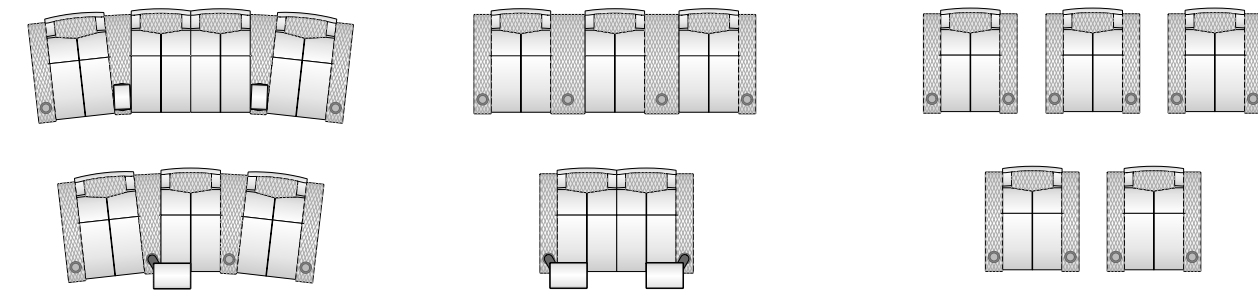

Relax Dual Motorised

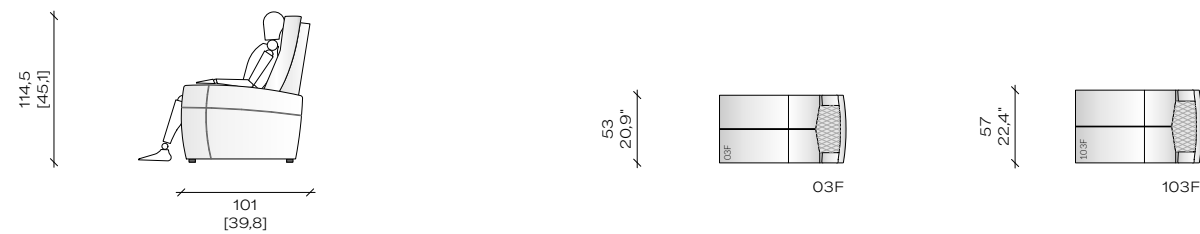

ELEMENTS

Modularity allows for extensive flexibility and freedom to make a perfect and unique seating layout that meets design and personal requirements.

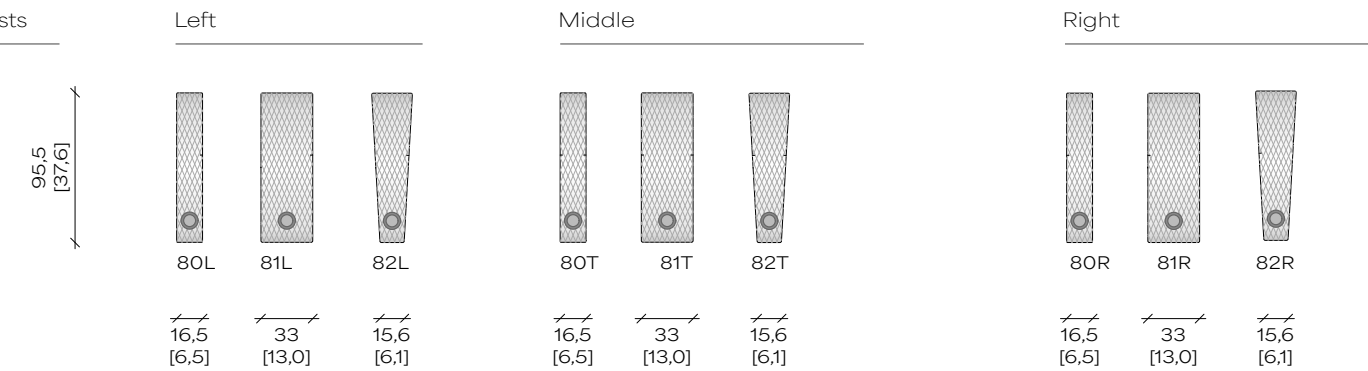

Like all CINEAK products, our FERRIER seating is modularly built and consist of different elements such as seats and armrests in several standard or custom widths. With these elements, one can put together any preferred seating layout which perfectly fits your space.
