

LARGO

LARGO

HOME THEATER SEATING

Design driven, low-back entertainment chair, featuring the comfort and features of a high-back chair.

LED backlit keypads

Control the motorized mechanism with programmable features (light intensity, timer, etc.), allows the user to have memory settings.

SOFA LOOK / THEATER COMFORT

The hidden 3-way motorized mechanism allows the user to independently control the foot-, back-, and headrest, guaranteeing a comfortable seating position for each user in each situation.

Dual motorized mechanism

allows for the backrest and footrest to operate independently from one another to ensure maximum comfort for the user by fine-tuning their preferred seating position.

Manual or motorized articulating headrest

allows the user to adjust the position of the headrest to the perfect viewing position and therefore offers proper head, lower back and neck support.

CINEAK's designer sofas prioritize comfort without compromising style.

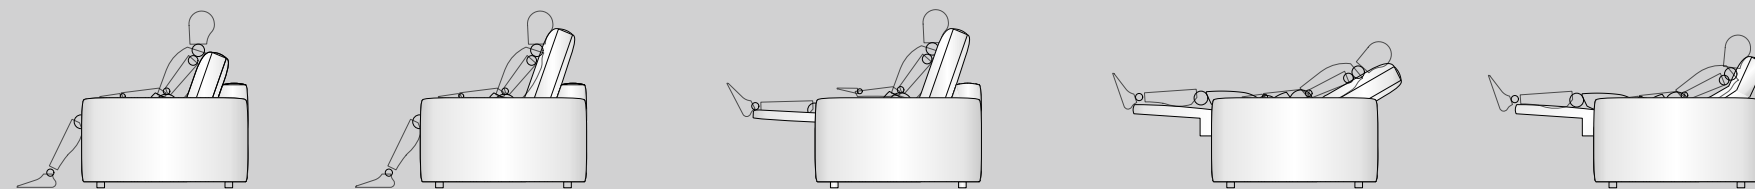

Unlike traditional fixed furniture, these sofas offer a range of adjustable features, including motorized adjustable backrest, headrest and seating angle.

This adjustable comfort allows viewers to find their ideal seating position and provides body support during long movie sessions. The ergonomically designed cushions and high-quality materials further contribute to a luxurious and cozy cinema experience.

One of the main advantages of CINEAK's designer sofas is their ability to optimize the viewing experience.

Fixed furniture can sometimes obstruct sightlines in a home theater, forcing viewers to strain or compromising their posture.

CINEAK's designer sofas, on the other hand, prioritize the optimal viewing experience. Its adjustable features allow users to adjust the angle and height of their seats to provide an unobstructed view of the screen from any seating position. This enhances immersion and minimizes distractions, allowing viewers to become fully focused on the content without any discomfort.

MOTORIZED DAYBEDS

At CINEAK we were not happy with the comfort of regular chaise beds, therefore we improved their comfort by adding motorized adjustability.

The importance of chaise bed adjustability in a movie theater cannot be overemphasized.

Unlike a fixed sofa bed, an adjustable chaise bed offers unparalleled comfort and convenience.

Viewers can adjust their seating position and enjoy optimal comfort during long movie marathons.

Moreover, thanks to its flexibility, a chaise bed sofa can be seamlessly transformed into a comfortable lounge area.

The adaptability enhances the overall cinema experience and provides a versatile and cozy seating solution for any entertainment venue.

AS A SOFA

making it the ideal lounging solution for each
entertainment, media or gaming room

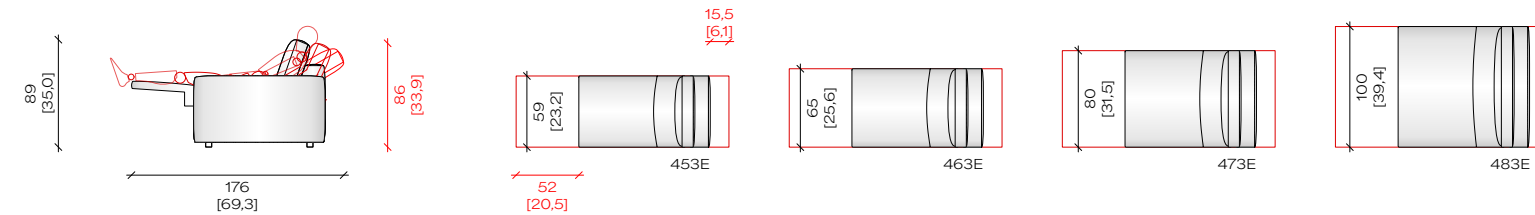

ELEMENTS

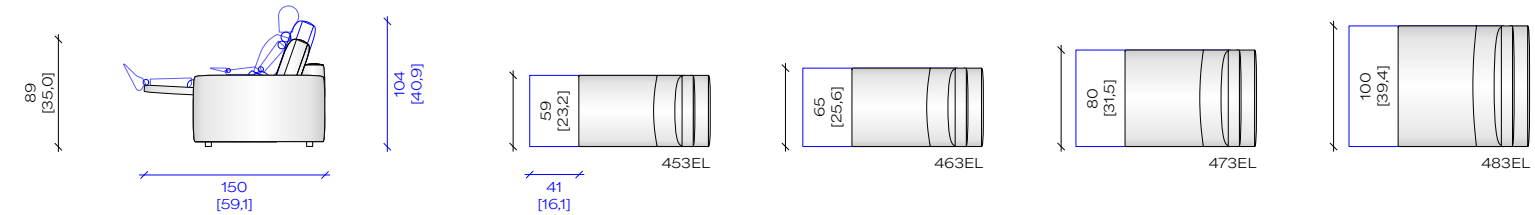

Modularity allows for extensive flexibility and freedom to make a perfect and unique seating layout that meets design and personal requirements.

Like all CINEAK products, our LARGO seating is modularly built and consist of different elements such as seats and armrests in several standard or custom widths. With these elements, one can put together any preferred seating layout which perfectly fits your space.
